

YUKON ASSESSMENT REPORT CHECKLIST - 2018

COVER PAGE OF REPORT:

- Nature of Report –Drilling, Geological, Geophysical, Geochemical, etc.
- Name and Grant numbers of claims
- 1:50,000 NTS Mapsheet Number(s)
- Latitude and Longitude for centre of claim block or UTM Coordinates and zone
- Registered Owner
- Mining District
- Authors
- Dates that work was performed

COMMON TO ALL REPORTS:

- Table of Contents
- Introduction with specific objective of the survey(s)
- Summary of previous investigations (history)
- List of claims with Grant numbers, name of registered claim holder and the operator (who paid for the work)
- Claim map with claim names and grant numbers
- Reference to available geology (local and regional)
- Description of data collected (geochemical, geological, geophysical), method of collection, equipment and procedures
- Sample location map
- Copy of any digital data collected (e.g., GPS data, geophysical readings etc.)
- Copy of assay certificates
- Interpretation and conclusions
- Statement of Expenditures
- Signed Statement of Qualification for author
- References

NOTE: ALL MAPS MUST INCLUDE THE FOLLOWING INFORMATION:

- Scale, north arrow and legend
- Latitude/Longitude or UTM grid

DRILLING:

- Drill logs with collar location, elevation, azimuth/inclination at collar and in any downhole surveys, core size/diameter
- Location of drill core/cuttings storage
- Assay method and results correlated with drill logs (note if assays not performed)
- Drill hole location map

GEOCHEMICAL SURVEYS:

- Sample descriptions (silt, soil, rocks, vegetation)
- Description of assay methods

GEOPHYSICAL SURVEYS:

- Full descriptions of the type of survey
- Geophysical readings or profiles (raw data plus any corrections and/or calculations)
- Results plotted in contour form at a reasonable scale

MAPPING & PROSPECTING:

- Geological map with outcrops outlines identifying lithology, structure and mineralization
- Prospecting must include a map showing location of any traverses, location of rock outcrops, subcrops etc with observations

CLIENTS MAY NOW SUBMIT ASSESSMENT REPORTS DIGITALLY WITHOUT THE NEED FOR A HARD COPY. GO TO WWW.YUKONMININGRECORDER.CA/ OR WWW.GEOLOGY.GOV.YK.CA AND SELECT THE **SUBMIT ASSESSMENT REPORTS** BUTTON. FOLLOW THE INSTRUCTIONS TO UPLOAD YOUR REPORT AND DATA TO THE FTP SITE.

SUBMIT ALL DIGITAL DATA COLLECTED DURING WORK PROGRAM (GEOPHYSICAL SURVEY DATA, IMAGERY, ETC.) THAT IS BEING FILED FOR ASSESSMENT CREDIT.

CLIENTS ARE ENCOURAGED TO SUBMIT THEIR DIGITAL DATA FILES IN ORIGINAL TABULAR FORMAT (XLS, DBF, ETC),

CLIENTS CAN STILL CHOOSE TO SUBMIT HARD COPY ONLY REPORTS DIRECTLY TO THE MINING RECORDER.
